

Morning Message from Miss Beckett

Good Morning Nursery.

I saw some terrific work on Seesaw, and it is clear that you tried very hard to learn the formation and the sound **t**.

I also saw some children adding one **more** brick to make some tremendous towers!
Well done everyone who tried those activities.

Are you still remembering to fill in your weather chart each week? Here is a song that will remind you to look out the window to see what the weather is like. You will be able to feel the weather too if you go outside to exercise.

Literacy

I am pleased that so many of you are practising your speed sounds and are learning to link sounds and letters. You are getting very good at forming the different letters correctly too. We will have a recap day today where you can recap the sounds and letters we have already covered.

An excellent and very easy phonics game to play is
I spy with my little eye, something beginning with ...
Why don't you play **I Spy** with someone in your family?

Are you still remembering to place the letters of your name in the correct order? Have another go at this today. If you can order the letters of your first name without looking at your name card, then have a go at your surname. You could even try to write your name, but remember, only the first letter of your name should be written with a capital letter.

Mathematics

One Less Game

You will need your number cards and some bricks or Lego bricks again today. Yesterday you made towers and added **one more** than a given number, and today you are going to make towers that are one less than your turned over number.

Get your number cards and place them face down in a pile. Turn over the top card and tell an adult what number you have turned over. Make a tower with that number of bricks or Lego bricks and then make another tower but this time build it with **one less** brick.

If you turn over a number 3, make a tower with 3 bricks then make a tower with 2 bricks and say: "**1 less than 3 is 2**"

Do this with all the numbers on your number cards.

Other Activities

If you can't go outdoors to exercise today, you could watch this video and try to join in with some of these yoga moves.

I'm sure that you are all remembering to wash your hands regularly while you are at home. Here is a song to help you to make sure you wash your hands thoroughly.
