1 INTRODUCTION

Whilst all schools have statutory responsibilities for children with Special Educational Needs and Disabilities (SEND), as covered by the special educational needs and disabilities code of practice (DfE 00205 2013). At Ark Franklin, we go above and beyond this in four distinctive ways:

- a Early identification.
- b Forensic teaching.
- c High impact intervention.
- d Review and response.

2 EARLY IDENTIFICATION

2.1 Universal Screening

We ensure that every child in Reception is screened at the start of the school year and that every child joining after this point is screened on entry.

2.1.1 Children are screened for speech, language and communication skills upon entry to Reception. These screens are also available in KS1 and KS2 if there is a cause for concern. For children who display early signs of high level challenging behaviour, anxiety or withdrawal the Strength and Difficulties Questionnaire (SDQ) will be used.

2.1.2 Children with low screening assessment scores or who are behind the expected levels in English and mathematics are not automatically designated as having Special Educational Needs but are provided with the teaching they need to make the progress required. It is only after a persistent problem that requires additional support has been identified that a child may be said to have SEN.

2.2 Ongoing identification

Ark Franklin is data rich and the termly data collection in English and mathematics assessment and against the Early Years Framework is used to monitor the progress of every child and highlight both

emerging issues and the impact of any intervention.

3 FORENSIC QUALITY-FIRST INCLUSIVE TEACHING

We train our teachers to understand the needs of every child they teach, and to systematically and thoroughly review the progress each child is making.

Our teachers are trained to understand the needs of each child in their class so that they can plan to meet those needs appropriately. For children with identified SEND this can mean adapting their teaching to ensure rapid catch up or, in some cases, simply ensuring that the child can access the curriculum fully.

We prioritise this training and have designed specific modules for every teacher from those on our initial teacher training programme, through middle and senior leadership programmes. Our inclusion team provide bespoke whole school training to ensure that all teachers are able to meet the needs of the children in their classes. This includes teaching reading and writing, techniques for meeting the needs of dyslexic and autistic children, de-escalating challenging behaviour and creating communication friendly classrooms.

4 HIGH IMPACT INTERVENTION

We support the use of specific high impact interventions and teaching techniques that have proven impact in addressing the most common needs our children present.

When a problem is highlighted the academy identifies, implements and reviews the most appropriate intervention for each individual child (see Table 1). These range from adapted teaching techniques in the mainstream classroom to specific interventions to support children with particular learning needs. We train school staff in a number of interventions that have been proven to have the most significant impact across our network and further afield in addressing commonly encountered Special Educational Needs.

	Wave 1: Mainstream classroom	Wave 2: School-based additional intervention	Wave 3: Specialist intervention
Literacy (inc speaking, listening and communication)	<ul style="list-style-type: none"> • Read, Write Inc • 1:1 phonics tutoring • Inprint 3 • Real-time feedback 	<ul style="list-style-type: none"> • Early Talk Boost • Talking tales Toolkit • 1:1 reading • Pre-teach 	<ul style="list-style-type: none"> • Speech and Language therapy • Educational Psychology input • Child and Adolescent Mental Health CAMHS • BIST • Occupational Therapy input • BOAT • Nurse

5 REVIEW AND RESPONSE

Meeting the needs of children with SEND is a whole academy responsibility.

5.1.1 Support for all children is coordinated through each academy’s provision mapping. If a child receives additional support from school staff or external agencies then this is measured and reviewed using the following cycle:

- a Baseline assessment (Assess)
- b Target setting (Plan)
- c Targeted support (Do)
- d Review and evaluation (Review)

-
- 5.1.2 The class teacher is responsible for the progress of each child in their class and reviewing the impact of any intervention. Where progress and/or behaviour remain a significant cause for concern, despite targeted teaching and support, the class teacher in consultation with the parents and SENCo will determine whether to refer the child for specialist assessment. Where such an assessment confirms that the child has a learning difficulty which requires special educational provision, the SENCO places the student on the SEN register at SEN Support and ensures that parents are informed.
- 5.1.3 School leadership teams review the progress of all children termly and make appropriate responses to this data. They report numbers on the SEN register and exclusions termly to the LGB and Ark Schools.

6 EQUALITY IMPACT STATEMENT

We will do all we can to ensure that this policy does not discriminate, directly or indirectly. We shall do this through regular monitoring and evaluation of our policies. On review we shall assess and consult relevant stakeholders on the likely impact of our policies on the promotion of all aspects of equality, as laid down in the Equality Act (2010). This will include, but not necessarily be limited to: race; gender; sexual orientation; disability; ethnicity; religion; cultural beliefs and pregnancy/maternity. We will use an appropriate Equality Impact Assessment to monitor the impact of all our policies and the policy may be amended as a result of this assessment.
