

Morning Message

Good morning Year 6 and welcome to a brand new week of home learning!

What's going well?

- Quality and quantity of work being uploaded onto SeeSaw: well done!
- 90+ attendance at every briefing

Even better if...?

- **All videos** are watched through in their entirety so that you understand the content and are able to learn from mistakes
- All work is marked and corrected, and feedback is responded to on SeeSaw where appropriate

Fancy getting a bit more active? Represent our school and borough and take part in **The London Youth Games Fitness Challenge**: a new challenge will be released every week at 9am via this [link](#).

You will have until Friday at 12.00pm to complete the challenge and submit your score.

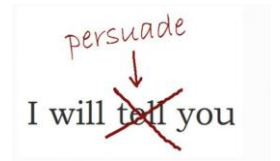

Writing

It's the beginning of our brand new unit: writing **persuasive texts**.

Today we are going to focus on some of the techniques expert writers use when writing persuasive texts by looking in detail at a promotional leaflet that has been written about an adventure park - Beecher Woods.

Once we've had a go at analysing an author's language choices, we're going to have a go at writing some short persuasive adverts for a variety of different products from chips to dog food!

There are two parts to today's lesson so make sure you watch the whole [lesson](#) so that you can properly get to grips with our new genre ☺ You will also need a copy of [this text](#) (either printed or on your screen).

Reading

This is our final week reading The Explorer – don't worry we will continue to read it as our class novel.

Today, we will begin with our new vocabulary before reading the [text](#) together. Please pick one page, record yourself reading and upload it onto Seesaw.

The video for the lesson can be found [here](#) and your activity [here](#). Please ensure that you mark and correct your answers before uploading.

Mathematics

Well done to everyone who found and followed my secret instruction of Friday's video. It was wonderful to know that so many of you ARE watching the entire video. Those of you who didn't spot it- keep an eye out for any more secret missions!

Please find the video for today's learning [here](#). Please remember that you need to mark your own work by watching the video. Please also make sure you are completing any maths work on paper rather than on the computer. The worksheet for today can be found [here](#).

Science

Please watch today's science lesson [here](#). It's all about conductors and insulators. The worksheet can be found [here](#).

Can you see any conductors and insulators in your home?

Computing

Please watch today's computing [video](#) on how to create a picture quiz on Purple Mash. Please first get hold of your Purple Mash login.
Please make your questions related to **Fairy Tales** and your target audience will be **reception, Y1 and Y2**. Each question must contain a picture! Remember to share your completed quiz on the display board for your class on Purple Mash.

Weekly Spellings

New spellings this week can be found [here](#). Write them out 3 times to practise 😊
