

# Year 6

Date 11/01/21

## Morning Message

Good morning everybody!

Well done for a fantastic first week of home learning – we are so proud of all of your efforts!

A special shout out to Oxford Class who posted the highest number of quality uploads on SeeSaw – can they stay at the top this week?

Remember to attend your class briefings on teams – let’s make sure we’re there on time at 8.40am and 2pm. We are really looking forward to seeing you online.

Have a great day!

Miss Love, Ms Graham, Miss Ahad and Ms Tan

## Writing

What might the last entry in Francis’ diary look like?

Will she be the only one writing in her diary today?

Watch today’s lesson [here](#) 😊

## Reading

We have had a great first week of reading – let’s all keep that up!  
This week in reading, we will continue reading The Explorer: today’s lesson will focus on key vocabulary.

The video for the lesson can be found [here](#)

A copy of the text can be found [here](#) and your vocabulary activity [here](#).

Please ensure that you mark and correct your answers before uploading – learning from your mistakes is how you progress rapidly!

## Mathematics

Good morning everyone! Today’s lesson is quite challenging so make sure you’ve had some breakfast and plenty of water to keep your brains in gear!

The video for the lesson can be found [here](#). It’s a little longer than normal, as I have gone through the answers in lots of detail for anyone who was finding it tricky. Please don’t forget to mark your own work! The questions for today can be found [here](#). You don’t need to print the work sheet you can simply draw the symbols on your piece of paper.

I have not uploaded any new challenges for today’s lessons, as there are PLENTY of challenges on the work sheet for any eager mathematicians who want to challenge themselves!

### Science

Video on static charge [here](#).

If you have any photos of you doing the experiment you can upload them onto Seesaw! If you have a balloon you can get it before watching the video. If you don't have one don't worry – you can just do the experiments next time you have a balloon.

Link to worksheet [here](#).

### Question for the day

What are 3 ways you can help your family around your home?

Here are some examples: helping to cook a meal, clean the dishes, learn how to Hoover, learn how to use the washing machine or tidying your room 😊

### Weekly Spellings

New spellings this week can be found [here](#). Write them out 3 times to practise 😊
